Git

Google Analytics

## Languages

Hungarian (native)

English (advanced)

German (beginner)

I'm a front-end web developer turned UI/UX designer whose biggest passion has always been creative visuals.

While working as a web developer, user analysis shortly became a part of my job and my curiosity encouraged me to go deeper into design. Day by day, I read more articles on UX and UI, drew more sketches of wireframes and spent more times using graphics tools, eventually I found my love for pixels and my thirst of knowledge has not stopped since, my growing portfolio is the best example for that.

## Areas of Expertise

UI/Visual Design, Mobile/App Design, Web Design, UX Design, Front-End Web Development, Content Management

## Work Experience

**Front-End Web Developer • 2019 – 2021**

Igor Corner Internet Kft.

I was hired as a front-end web developer while I had the opportunity to get into the other phases of product management, inc. product design. I worked on websites from various fields, such as tourism, e-commerce and finance.

### Main responsibilities:

- Designed, developed and built websites mostly for the tourism industry
- Coded responsive newsletter templates
- Collaborated closely with the back-end web developer
- Researched, run interviews and solved problems with stakeholders
- Suggested ideas and implemented solutions to improve the features of the hotel management system
- Presented projects to clients, was in touch with them during the process
- Managed content of the websites

### My personal highlights:

- Successfully launched over 10 websites, inc. [hmhotels.hu](http://hmhotels.hu) & [csokfelujitas.hu](http://csokfelujitas.hu)
- Implemented a new room booking system which eliminated the errors of the previous system
- Built and managed websites for one of Hungary's biggest hotel chains Hotel & More and top restaurants Bestia and Vendéglő a KisBíróhoz, among others

## Education

**Bachelor's Degree in Business Information Technology • 2018**

University of Sopron

### Courses

UI Design at UI Academy • 2021

UX Design at Udacity • 2021
